## **2 PROJECT STATUS REPORT TEMPLATE**

### **2.1 Project Status Report Details**

In order for the group to be able to develop an Incident Reporter System, the group must know and understand the current reporting procedures. The purpose of the proposed system is for the client to get detailed and real-time events using the report of the user. Also, to provide incident report records that the client can be used in future purposes. Using the proposed system, the client will be able to avoid prank reports, also, the client will be able to avoid sending people to respond to prank reports.

- [Status of the Project]
  - Revise Documentation, Continue Mobile Application
  - The proposed project is an Incident Reporter System. The system allows the user to send a video footage or picture of an incident using android device to the system's web server with required details. The system's web server will be monitored by the Barangay Magallanes employees. The mobile application is named DASH-R-COME, the mobile application name was composed from the objective before which was to respond quickly. The mobile application runs in Android devices. Incident includes road accident, crime, traffic violators, and exploitation of traffic officers.
