## 2 PROJECT STATUS REPORT TEMPLATE

### 2.1 Project Status Report Details

In order for the group to be able to develop an Incident Management System, the group must know gather information of how the Barangay Magallanes process incident reports. The purpose of the project is for the client to get detailed events/ incidents using the report of the user. Also, to provide the client records of incidents that could be used in future purposes. Using the system, Barangay Magallanes will be able to avoid receiving false incident reports.

- [Status of the Project]
  - The proposed project is an Incident Management System. The system allows the user to send a video footage or picture of an incident (using an android device or dashboard camera) to the system's web-server. The web-server will be operated by the client's employee. The mobile application runs in Android Devices, the types of incident that can be reporter includes the following; road accident, crime, theft, fire, traffic violators, exploitation of traffic officers.
  - Revise Documents, Continue Mobile Application
